

# Spring 2019 - URBAN AND COMMUNITY STUDIES COURSE OFFERINGS

Revised 10.30.18

Please note, due to unforeseen circumstances course information may periodically change. We will make every attempt to notify you via e-mail when we become aware of any significant changes to our course offerings in the major. The schedule will be maintained on our website, including any updated changes as they arise. Please visit [www.urban.uconn.edu](http://www.urban.uconn.edu), and then click on the “Degree Information” tab located at the top of our homepage, then click the “Course Schedules” tab. Once you are on our Course Information page, click on the Spring 2019 semester link.

Course offerings for the various campuses are always available in the Student Admin System at <http://studentadmin.uconn.edu/>. A Dynamic Search can be processed by clicking on the “Guest/View Courses” icon located near the lower half of the page.

**Key: Writing courses (W) are noted in red. | Limited Seating = A limited number of seats open to all majors for that course section.**

## Highlighted Courses:

### Courses in the major:

URBN 3998-002: Community Organizing

This course answers the question: How does one approach organizing a community? What are the steps to be taken to insure success? What constitutes a winning strategy? How do find and develop leaders?

This course will provide students with the tools that enable them to think like a community organizer. We will examine and analyze specific approaches to organizing a community, compare and contrast approaches, utilize skills such as power analysis, strategy development and leadership development.

### Related Courses:

#### Storrs

GEOG 2100: **Economic Geography:** Examination of the relationship among economic, cultural, and geographic processes which affect the patterns, structure, and growth or decline of economic activities. The global extent of the agricultural, manufacturing, and service sectors is presented with particular emphasis on the interdependency of non-western and western economies. CA2

GEOG 2410: **New Digital Worlds of GIS:** The role of geospatial technologies in science and society; how these technologies address environmental issues; how further development of these technologies may impact lives in the future. Provides a strong conceptual and scientific foundation for further coursework and includes discussion of career opportunities in GIScience. CA3

GEOG 3000: **Race, Sex, Space, and Place:** Focuses on cities, sexualities, and race relations through a study of racial segregation in American cities; emergence of gay neighborhoods; globalization; migration; and human rights.
